Professional Summary

MERN Stack Developer with expertise in building scalable web applications using modern JavaScript frameworks. Proven track record of delivering 15+ production-ready projects including responsive web applications and Firebase-integrated solutions. Proficient in end-to-end development lifecycle with strong focus on code quality, performance optimization, and user experience. Combines software development expertise with hardware training for comprehensive system-level understanding.

Technical Skills

Frontend Technologies: React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), jQuery
UI Frameworks & Libraries: Tailwind CSS, Bootstrap, Material-UI, Responsive Web Design
Backend Technologies: Node.js, Express.js, RESTful APIs, Server-Side Rendering
Databases: MongoDB, Firebase Realtime Database, Firestore
Tools & Platforms: Git, GitHub, Firebase, npm, Webpack, Babel, VS Code
Core Competencies: Full Stack Development, Component Architecture, State Management, API Integration, Performance Optimization, Cross-Browser Compatibility, Agile Methodologies
Additional Skills: Hardware Systems, System-Level Optimization, Problem Solving

Professional Experience

Frontend Developer Intern

September 2025 – December 2025

Unified Mentor

Remote

- Developed and deployed responsive web applications using React.js and modern frontend frameworks, ensuring cross-browser compatibility and optimal performance across devices
- Implemented component-based architecture and state management solutions to create maintainable and scalable code structures
- Collaborated with design and backend teams to translate UI/UX designs into functional, pixel-perfect web interfaces
- Optimized application performance through code splitting, lazy loading, and efficient rendering techniques, improving load times by implementing best practices
- Utilized Git for version control and participated in code reviews to maintain code quality standards
- Debugged and resolved frontend issues, ensuring smooth user experience and application stability

Key Projects

Firestore Authentication System | *React.js, Firebase, Context API*

- Built secure user authentication system with Firestore supporting email/password, Google OAuth, and social login
- Implemented protected routes, role-based access control, and persistent user sessions with JWT tokens
- Designed responsive UI with real-time feedback for authentication states and error handling

E-Commerce Web Application | *MERN Stack, Stripe API, Redux*

- Developed full-stack e-commerce platform with product catalog, shopping cart, and secure payment processing
- Implemented RESTful APIs with Express.js and MongoDB for product management and order processing
- Integrated Stripe payment gateway and built responsive UI with React and Tailwind CSS

Real-Time Chat Application | *Node.js, Socket.io, MongoDB, React*

- Created real-time messaging platform with WebSocket connections enabling instant message delivery
- Implemented user presence indicators, typing notifications, and message history with MongoDB
- Designed scalable backend architecture handling concurrent connections with optimized database queries

Task Management Dashboard | *Next.js, Firebase, Tailwind CSS*

- Built feature-rich task management system with drag-and-drop functionality, filters, and real-time updates
- Leveraged Next.js for server-side rendering and Firebase for real-time data synchronization
- Implemented responsive design with Tailwind CSS ensuring seamless experience across all devices

Portfolio of Mini Projects | *Various Technologies*

- Developed 10+ mini projects including weather apps, calculators, to-do lists, and API-integrated applications
- Demonstrated proficiency across multiple frameworks and libraries while exploring different design patterns
- Applied best practices in code organization, documentation, and responsive design principles

Achievements & Certifications

Portfolio Completion: Successfully delivered 15+ web projects demonstrating full-stack development capabilities

Firebase Expertise: Completed 5 Firebase-integrated projects showcasing real-time data handling and authentication

Frontend Development Internship: Completed 3-month intensive internship at Unified Mentor with hands-on project delivery

Technical Training: Completed hardware training enhancing understanding of system-level optimization

Additional Information

Languages: Punjabi, Hindi , English

Interests: Open Source Contribution, Competitive Programming, Tech Blogging, Latest Web Technologies

Availability: Immediately available for full-time opportunities
